COVID-19

2022 MARCH 3

WA's Safe Transition Plan

Based on the latest health advice, WA will open its border allowing for safe travel into Western Australia.

Domestic arrivals

Domestic travellers must be triple dose vaccinated, if eligible, to travel in to WA.

Have a registered G2G pass

No quarantine required

All travellers to provide proof of negative rapid antigen test (RAT) within 12 hours of arrival and report any positive result. This requirement is subject to ongoing review.

International arrivals

All vaccinated international travellers will be allowed into WA. Unvaccinated returning Australians will be allowed into WA, capped at 70 people per week.

Comply with Commonwealth requirements

No quarantine required for vaccinated travellers

Have a registered G2G pass

7-days hotel quarantine for returning unvaccinated Australians

All travellers to provide proof of negative rapid antigen test (RAT) within 12 hours of arrival and report any positive result. This requirement is subject to ongoing review.

Public health and social measures include:

Wear a mask as required

Show your proof of vaccination

Keep checking in

Get vaccinated, including your third dose when eligible

Public health and social measures remain in place based on public health advice
